

## TONOPAH OPENS RAILROADER'S EYES

Archie W. Lake, freight agent of the Southern Pacific, with headquarters at Salt Lake, came to Tonopah yesterday for the first time. Mr. Lake is here on business for his company, and expresses himself as much surprised to find such a grown up city in southern Nevada.

"I had heard a great deal of Tonopah and Goldfield," said he, "but I had not formed the slightest conception of what they really were. There is a great deal of business for us here, and we are going to make an effort to get it. We are going to give the people the best service possible, and treat them as they should be treated. We are, of course, getting lots of business from the San Francisco end, but there is the greatest interest being taken in this part of the country in Salt Lake, and the merchants and business men are looking forward to better arrangements."

"We will put a map in here who will remain steadily, covering the trade of Tonopah, Goldfield and Rhyolite. To appreciate this country one must see it."

## GREAT IS ROUND MOUNTAIN DAISY

CY JOHNSON SAYS HE HAS THE  
BIGGEST LEASING PROPOSITION  
IN COUNTRY.

Cy E. Johnson, who was the fourth man to get into Round Mountain, and who was one of the first, and is still one of the principal stockholders in the Round Mountain Daisy, returned here yesterday from the East. Mr. Johnson is a mining man and a man of action. He is a man, too, who has a sublime confidence in the future of the Round Mountain Daisy.

He has two leases on the Daisy, of which he is general manager. One of these he has been working right along, and the other he went East to finance. People may prate of dull times; they were just as dull two months ago, when Mr. Johnson went East, but he got the money on which to go ahead on his second lease. The first lease is operated by the Crescent Leasing Company, of which Sam Z. Murray, president of the First National Bank of New Orleans, and of the American Fruit Company, is the president.

The second lease is that which was operated by Slim Morgan, and from which \$25,000 or \$30,000 has been already taken. On this, while in the East, Johnson formed the Solid Gold Mining and Leasing Company, composed of well known financial men of Hartford, Conn. E. J. Webb, a retired banker of that place, is president; Johnson is vice president and general manager; J. E. Inman, secretary and treasurer, and E. J. Woody, president of the Hartford Mining Exchange.

"I went right to these gentlemen," said Mr. Johnson, last night, "and laid my proposition before them. I told them what I had, gave them my references, showed them the ore which had come from the lease and told them what I wanted. They were satisfied, and undertook among themselves the formation of the company, made me the general manager, with the condition that I remain in the position during the life of the lease. The latter has eighteen months to run."

"There is in the bank the sum of \$25,000 to develop the lease, and the same gentlemen have put up another sum, which may be used for any other lease we may want. The Slim Morgan lease is down 105 feet and from 85 feet down the ore runs from \$25 to \$100. It was from this lease that all the fancy, crystallized and solid gold specimens were taken that sold the Daisy to the present owners. We will make a crosscut at the 50-foot level, and run to the Madigan lease line, and will then crosscut back toward the Daisy company's shaft. We anticipate getting out more of that fancy stuff in going toward the Madigan line. We will put up a hoist and put ten men to work right away."

"On the Crescent lease we have sunk 125 feet and are in \$25 ore; we expect to cut the Fairview ledge at the 150 level, or at any rate not deeper than the 175. Personally, I think that we will get sulphides at the 250 level, and if we do we have the biggest leasing proposition in the country."

"The Round Mountain Daisy Company has ordered a mill, which will be put up as speedily as possible. This will make the low grade ore in the mine very valuable, and we can haul it out as if we were quarrying it. I have been interested in the Daisy ever since I went to Round Mountain, and have busied myself in getting in on it at all possible points and in all possible ways. I think that Round Mountain is one of the greatest camps in the world, and Daisy is the greatest mine in Round Mountain."

Mr. Johnson leaves for Round Mountain this morning.

## BELLE HELEN IS LOOKING FINE

H. M. Eakin of Belle Helen arrived in town yesterday. Mr. Eakin has a lease and an option on the Never Sweat property, and has behind him some Salt Lake people.

"The district," said he, "is looking fine, and in my opinion is going to develop some very good mines. On the Never Sweat lease we have sunk a shaft to a depth of fifty feet, and will run a tunnel for 600 feet. We have a four-foot vein, which will average from \$6 to \$15 a ton, and we find bunches that go as high as \$1000. I have just had Tony Jacobson, one of the best known mining men of Salt Lake over the property. He is one of those who are interested with me, and he thought so well of our holdings that he ordered the driving of the tunnel."

"There is considerable work going on in the district and there are quite a number of shafts and tunnels to be seen. T. T. Cornforth, who came in a few days ago, has only recently returned from Denver and is going to continue his work on a very extensive scale. He has already made shipments from his properties."

## SHOULD ATTEND BUTLER TONIGHT

The Butler Theater will not have its usual matinee this afternoon, the show being closed to allow the performers to go to the ball game and root for their favorites.

If anybody wants to see something that they may have escaped him at the ball game he should take in the Butler tonight, for the scenes of the afternoon will be depicted at the burlesque, and there will be any amount of knocks and shots and joshes on the players and the crowds.

JOLIET, Ill., Sept. 14.—The pardon board today denied the application for pardon made by Paul O. Stensland, and he will have to serve out his full term of imprisonment for looting the Milwaukee Avenue Savings Bank of Chicago, of which he was president.

### Familiar Language.

"Mr. Chairman," called out a dignified person in the audience, "I rise to a point of order."

"State your point of order."

"The gentleman who has been speaking forgets that there is a meeting of the Neighborhood Improvement association, an organization that stands for the betterment of the conditions that surrounds us. It stands, Mr. Chairman, for the elevation of mankind, and particularly for that portion of mankind that more immediately environs us. Therefore, I submit that he is out of order when, in addressing us, he uses coarse slang terms, borrowed from the vocabulary of the race course, the gambling den, and the slums."

"How do you know he does?" asked a hundred voices at once.

The dignified person rose and sat down, while the speaker proceeded with the remarks.—San Francisco Star.
